

# Trying to find a way to migrate from your legacy equipment to a next generation network?

 **INTEGRAL  
ACCESS®**  
Access network solutions  
for the new telecom world

## Let Integral Access® lead you down the right path.

The New Public Network is being built now, but you still have a legacy infrastructure. With an IP-based, broadband access solution that supports converged voice, video, and data services, Integral Access will help you migrate your access network equipment without sacrificing your legacy investments. Our revolutionary technology is ready today to help you with a smooth transition to IP, so you can offer carrier-class quality and a full range of differentiated services, over new or legacy infrastructures. **When you're ready to move, we'll help you choose the right road to the future.**
